

Letter from the President of Ritus Corporation

At Ritus Corporation we are in the business of developing and manufacturing quality components for safety, comfort, and utility. We apply knowledge and experience, gained from over fifty years in manufacturing, to produce products that improve performance, deliver value and drive success for our clients.

Over the past several decades, Ritus has focused on strategic growth, increasing the size of our manufacturing space to over 350,000 square feet. Our plants currently house over 200 presses and nearly 100 pieces of secondary, manufacturing equipment.

Global business is always changing. Ritus continually focuses on improving our engineering and manufacturing abilities in alignment with emerging technologies, so as to provide the best program options that meet the needs of our clients.

At Ritus we live by three standards of service.

Commitment – Our customers get our full attention. We promise to address issues with urgency and respond quickly with a knowledgeable solution. We don't consider the project finished until the customer is completely satisfied.

Quality - Ritus empowers its people to be proactive and seek improved methods in engineering and production capabilities. Ritus encourages our team to bring forth innovative solutions that add value and make a difference.

Attitude – To be a truly reliable partner, we must share the same mindset - a commitment to service and dedication to excellence. Our team takes personal pride in the work they do. We feel rewarded when a customer places their trust in us to get the job done.

Our goals are clear, our commitments are achievable, and we are confident we can deliver the best solution for our clients. We are thankful for our customers and appreciative of our dedicated employees who make a difference every day. To those still evaluating what Ritus Corporation may have to offer, we look forward to earning your trust and your business in the future.

Sincerely,

A handwritten signature in black ink that reads "Tom".

Tom Gebhardt
President, Ritus Corporation
